

## Seeking America's Top Teacher Trainers

### Company Description

We are part of a network of professionals who deliver research-based, highly effective training in **Classroom Management** and **Student Engagement & Motivation** in all types of classrooms across the country.

### Job Description

We are seeking highly qualified, educators, administrators, presenters or facilitators to provide professional development and in-service trainings for primary through secondary schools and districts across the country (including public, private and charter schools). You must enjoy training and staff development.

You have the choice to remain in your current position and train on 'off days' or train on a more consistent basis. As a consultant, you may work in your regional area or travel to work in another state – you will determine what is best for you.

The strategies we teach are proven to help teachers, students, and schools succeed together on a level they never thought possible. Every consultant serves as an independent contractor, which allows for unlimited flexibility and earning potential. You are your own boss; you make it happen and we will help you along the way. Applicants who meet the requirements will be invited to attend one of our next 4-day Train the Trainer sessions: **October 12-15 in Las Vegas, NV** or **October 26-29 in Atlanta, GA**

**Please note: this position does NOT pay hourly or a salary.** This is a contract assignment. Successful consultants include current or retired teachers, administrators, counselors, behavior specialists, staff development coordinators, coaches and professional speakers. They understand the challenges teachers face in the classroom and recognize the opportunity to help students and educators succeed.

All consultants share the following qualifications:

- Strong presentation and facilitation skills.
- Experience in the field of education - prefer certified or retired educators but relevant experience may be considered.
- High degree of professionalism and an entrepreneurial Spirit.
- Desire to help educators and students succeed.
