

Name: William J Bennett, M.D., Ph.D.  
Current Employer(s): Revolution Medicine  
Director, Medical Science Liaison

Appointment: Assist. Professor, Clinical Research  
George Washington University School of Medicine

Dr. William Bennett is clinical and pharmaceutical science professional, with areas of focus in pancreatic ductal adenocarcinoma (PDAC), non-small cell lung cancer (NSCLC) and breast cancer. He works within the drug development industry, specifically medical affairs, in order to advance the 'best in class' treatment for a variety of cancers. His hope is that one day, we as an industry will develop novel therapies and new interventions to reduce health disparities.

Dr. Bennett is currently a Medical Scientist as well as Assistant Professor of Clinical Research at The George Washington University School of Medicine. His areas of specialty are Clinical Research, where he received his training in both Surgical and Anatomical Pathology.

Dr. Bennett also serves as a Member of Board at Piedmont Healthcare Institutional Review Board, and maintains active membership with the:

- American Society of Minority Transplant Health Related Professionals (ASMTHP)
- American Association of Pharmaceutical Scientist (AAPS)
- International Society of Biological Environmental Repository (ISBER)
- American Association of Clinical Oncology (ASCO)
- American Association of Clinical Research (AACR)

Dr. Bennett obtained his undergraduate degree from Florida A&M University; his Master's and MD Degree from the George Washington University; and his PhD from Walden University.

Dr. Bennett proudly serves as Member of Board of Directors of Sisters By Choice – a non-profit organization that provide medical care to patients who suffers from breast cancer. He's also one of the top financial supports to the Charles H. Wesley Education Foundation – a non-profit organization that provides mentorship and scholarships to young men going to college.

Dr. Bennett shares a passion for his work in clinical research, and the advancement of educational opportunities for minorities. He is a proud member of Alpha Phi Alpha Fraternity, Inc., where he volunteers with at risk communities, including the homeless and poor, and also mentors' young men who are on the verge of entering high school and college.
