

Margaret Poppell Literacy For Life Program

*"How wonderful it is,
that nobody need wait a single moment,
before starting to improve the world."*

Anne Frank

In 1986 Margaret Poppell may have retired from teaching, but she never retired from improving the lives of others through her love of literacy. That tradition continued with the creation of the Margaret Poppell Literacy For Life Program. This ongoing program is designed to supply new books to grades K/5 in Florida school districts working with each unit's local schools. This is a fitting tribute for a woman who dedicated her life to spreading the gift of literacy to those young and old. The bookplate will be used by the units to identify them and the FREA as the donors.
